(37 C.F.R. §1.97)

Sir:

The following information is being disclosed to the U.S. Patent and Trademark Office as information that may be material to the examination of the above-identified patent application.

The art cited on the attached Form PTO-1449 was cited in a Japanese counterpart application. Copies of two of the references cited in the Japanese application were previously submitted in an Information Disclosure Statement filed on July 19, 2006. We are, therefore, filing this supplemental information disclosure statement to make of record the other three (3) cited non-U.S. references. We were informed that these three references were cited as background art.

The filing of this Statement is not to be construed as a representation that a search has been made regarding the claimed invention (37 C.F.R. §1.97(g)) or that no other possible material information exists. In addition, the filing of this Statement is not to be construed to be an admission that the information cited in the Statement is, or is considered to be, material to patentability (37 C.F.R. §1.97(h)).
